Scoring and Reporting

The test will determine an overall proficiency level from 0 (Beginner) to 6 (Mastery), as well as individual proficiency levels from 0 to 6 for each of the skills and sub-skills tested. The overall scores average the results of the skill sections, and for greater accuracy, they are expressed to one decimal point (from 0.0 to 6.0). The test is graded as follows:

-  The grammar, listening, and reading sections are scored automatically by iTEP software.
-  The writing and speaking sections are evaluated by trained professionals, according to a standardized scoring rubric.
-  The official score report presents individual and composite scores, as well as the candidate's strengths and weaknesses for each of the sub-skills tested.

SCORE REPORT

The iTEP Score Reports are designed to easily compare students' scores and track improvements. Scores are aligned with the Common European Framework of Reference (CEFR) and evaluate expected "real-world" language skills based on the examinee's level.

SECURITY PROCESSES

iTEP's FotoSure® software photographs the test-taker throughout the exam, and our Item Bank feature live-streams content to ensure that no two tests are alike.

“ Definitely the auto-grading is very nice: the fact that we don't have to get our little bubble sheets out, and mark the scores, and count them up and stuff. It's a lot faster and more accurate.

Southern Utah University

AN ITEP ACADEMIC-PLUS CASE STUDY

For years, Southern Utah University relied on student provided test scores to place international students in their Intensive English Program (IEP). Accepted students would present their test scores upon arrival at the university. However, this placement method did not work when students arrived without test scores or when the test scores they brought were not compatible with the school's system.

Staff at the university's American Language and Culture Center, which runs the IEP, decided they needed a new method to assess and place incoming students. In 2014, they found their solution: the iTEP Academic-Plus exam. This exam offered easy, flexible testing with quick results and comprehensive scores for accurate placement. Since 2014, iTEP has continued to support Southern Utah University and its international students. Most recently, iTEP began providing exam preparation materials to the university's international students. The goal is to help students perform to the best of their ability by allowing them to become more familiar with the exam's rules, regulations, and setup in their native language.

“

“It’s just a more compatible test for what we’re trying to do within our Language Academy, and because there are so many different varieties of how the test can look, that’s an added flexibility that we don’t get through [other tests].”

**Associate Dean of Academic Affairs, Darren Grosch,
Los Angeles City College**

“

All our faculty and staff tried the test and were in favor of it. We appreciated that iTEP provided virtual proctoring and that the writing and speaking sections were graded by ESL experts, which relieved our faculty. iTEP was priced competitively, and the time commitment and proficiency range being evaluated was what we were looking for.
